day (Tuesday) assume the managership of the Norwich exchange. A. L. Weatherhead of Manchester will succeed Mr. Hunt as manager of the Willimahtic exchange. The transferring of Mr. Hunt to the Norwich office of the company is in the nature of a promotion and is certainly a deserved one. Mr. Hunt came here as manager in October, 1902. He had previously been a special agent for the company, traveling all over the state. At the local exchange there were but two operators and two hundred and twenty-five subscribers. At the present time there are eighteen operators and fifteen hundred and ninety-three subscribers, a very nice gain for a triffe less than nine years' service.

Mr. Hunt will eventually move his family to Norwich but will not do so until he can procure a satisfactory tesidence. During his residence in this city he has made a large number of friends who will regret his and his family's departure from this city, but will at the same time wish for him continued and marked success in his work. Willimantic's loss will be Norwich's gain.
